VIDEO GAME SYSTEMS ARE JUST EXPENSIVE TOYS...

A couple of days ago Nintendo announced that their Project Reality game system would be a cartridge-only machine. Hardly a big surprise, as nobody, not even Nintendo, would have the ability to bring out new hardware with a nCD-ROM drive at an introductory price of around \$250. What's really important about this announcement, though, is something much more basic. It's the fact that video games are a part of the toy industry, and that for an item to be a mass market success, there are certain limits as to how much people or willing to pay for a toy. In this economy anything over \$250 becomes an item that is thought about before it is purchased. Yes, Nintendo could have easily planned on bringling out a \$450 CD and cart machine, but it just wouldn't sell in the quantity that Nintendo would want to see. That makes it wouldn't sell in the quantity that Nintendo would want to see. That makes all the programment of the

independent pieces, each one less man 3.29.

Witness the Sega Genesis and the add-on Sega CD. Put them together in one shell (Wondermega, or X-Eye here in the States) and the \$450 system just doesn't sell. Sold separately, the public was quick to accept the new just doesn't sell. Sold separately, the public was quick to accept the new two piece system with open arms. Another good example is the Atari two piece system with open arms. Another good example is the Atari Jaguar. Since it is selling for only \$250, this 'toy' is doing well. Their CD, set to debut for under \$200, should also meet little resistance from game

players.

An example of a 'non-toy' game system is the 3DO. This system is outside of the impulse buying range of the public, and while now it is just starting to move, it hasn't set the world affire as the system to replace Nintendo or Sega. Matsushita of Japan has noted this, and when they roll out their version of the 3DO later this month, it will be launched at a much more palar ble \$500 price point. The U.S. (it should be noted) will also reduce their price to \$500. This is still quite expensive, but 3DO has also stated that the system could hit \$400 by this fall.

system could hit \$400 by this tail.

As to the newer systems, the same toy price guidelines will apply to Saturn and Sony's PS-X. Sega, wanting to stay competitive with Nintendo, is now forced to bring out a cart-only Saturn system. While not officially now forced to bring out a cart-only Saturn system. While not officially announced yet, this system is tentatively priced at \$275 for the Japanese announced yet, this system is tentatively priced at \$275 for the Japanese launch this November. Less is known about Sony's machine, but if it launch this November. Less is known about Sony's machine, but if it appears as a CD-only system, they could run into the same player resistance.

the 3DO did.

The same toy pricing also applies to game cartridges. Once the cost of the cart exceeds the system price, there are problems. Sega just might find this out if they actually release Virtua Racing at \$99. Fortunately, Sega will soon come out with a separate SVP modular cart, so the prices of all truure SVP games (which will plug into the SVP cart) will be back to affordable. Just plants, if Nintendo had implemented this split cart format years ago, perhaps we wouldn't have had to pay full price for each of the (past and future) updates of Street Fighter 2!

300 SYSTEM DOWN TO \$500!

I resisted the temptation to go out and buy a 3DO system last Christmas because I felt that it was just too expensive. Also, the games out at that time didn't look all too impressive. Now it's a different story Discs like Madden 3DO and Super Wing Commander have gotten me interested again. There have been rumors that the price may come down in September when the new shopping sea-

Daniel White

Sarasota, FL

The 3DO system price has been reduced to \$500 and could hit \$400 by fall!

(Ed. You must be psychic Dan. Just a couple of days ago Panasonic of American announced that they immediately are reducing the price of the 3DO to \$500 Why now? The real story comes from Japan. Rumor has it that the price reduction came directly from Mr. Youichi Monshita (president of Matsushita) him self, as Japan wants to intro the unit at a competitive price and \$700 was just too much. Much of this cost reduction can be attributed to chip integration, parts cost reduction and increased factory efficiencies 3DO expects", manufacturing costs to decline an additional 20 percent (\$100) or more this fall " So Dan, grab a system for \$500 now or wait another six months for a \$400 system.)

PRICEY GAMES

I don't know if you have noticed that games are getting very expensive Perhaps you guys at the magazine don't care as you get everything for free, but we normal players have to shell out \$60+ every time we want to play a game. Yeah, we rent games to save some money, but the games we want to spend some time with are usually the ones that cost big bucks. Now with special chips like Nintendo's SFX and Sega's SVP being included in games. I picture carts topping the \$100 mark. Do the compa nies realize that we just can't continue to pay that kind of money for our games?

Greg Danton Mobile, AL

(Ed You bring up a very good point. Greg and we at EGM have been hounding the manufacturers about the high price of games for some time now. There is good news and bad news, though.

First the bad news. Nintendo has not made great inroads to lowering the prices of their FX chip games. While they are absorbing the costs of the FX chips in the games they do themselves, the third-party licensees who want to bring out FX chip games are either forced to go to 4 Meg carts or charge a lot of money to make up the FX chip cost.

Because of Sega, Nintendo may have to rethink its FX chip game plan!

The good news is that Sega has seen how players want good games at a reasonable price and they have gone out and created a special modular cartridge which will house their SVP chip. It will be a one-time purchase and cost \$40. Expect it to appear in June

And this is only the beginning. Sega has some very interesting ideas that will drastically reduce the cost of games. Unfortunately Sega swore us to secrecy as to how or what games this new technology will appear in But rest assured that not only will Sega introduce something very special in the next few months, it should send Nintendo back to the drawing boards as to how THEY do games. More next month!)

WIN A PAIR OF ACCLAIM JOYSTICKS!

GIMME THOSE TUNES

One day I was watching TV and one of those "MORTAL KOMBAT!!!" commercials came on. At the end of it I briefly caught sight of a message in the corner of the screen that said something about a Mortal Kombat music CD that was out now or something like that, Am I reading this right? What's this all about? If it's true, how much does it cost and where can I find it?

Andrew Cleauin Nanaimo, B.C., Canada

Mortal Kombat fans into rave/techno music should check out the Mortal Kombat CD!

(Ed. The CD is for real, Andrew, On the disc are five songs performed by The Immortals It's released by Vernon Yard Recordings (V25H 38419) and if you re into rave/techno music, you'll find this CD to your liking. There are five songs on the disc, each having a slightly different flair to them. The disc can be picked up at most music stores with a price between \$14.95 and \$17.95, depending on which store you happen to visit If you're a Mortal Kombat nut who must have every piece of MK merchandise, it's definitely worth a listen)

If you think you have what it takes to contribute to society, go write to Newsweek. If, however, you have a thought or opinion that fellow gamers would particularly find crezy, we'd love to immortalize you with a special edition EGM T-shirt proclaiming your fondness of and psychosis to video games!

This letter contains important information. I have solved the case of why postmen are killing their peers. It's because of your magazine. It all started when a bored, underpaid mailman picked up my issue of EGM and read it. Obviously he got hooked because it's the best magazine. Well, pretty soon I stopped getting EGM. I was disappointed and puzzled. Two months later I got your card saying it's time to renew. That's when the killings started, My theory is that the mailman, you know, the underpaid one, didn't have my magazine to steal so he was depressed and started killing people. Well, I renewed and now my magazine is being vandalized by the post office to get even. So I am asking you, from the bottom of my heart to please put your magazine in a handy-dandy plastic baggy. My congrats to your mag. I will have my revenge. Now I'm in the witness protection program and

can't leave my real name.

Since 'John Doe' of Paso Robles, California is in the witness protection program, we'll just have to give his prize of an EGM T-shirt to his local post office for helping 'John' achieve his fame and fortune as the Psycho of the Month!

HOOK ME UP

I went out and bought Lethal Enforcers for the Sega CD after seeing it while strolling through the mall. I brought it home, opened the box and checked out the gun. Aside from the strange blue color of the gun, why is there a phone jack on the bottom the handle? What the heck is it used for? Could a modem hook-up be the answer? A multi-player hook up where everyone shoots at each other would be pretty cool. So how about it?

James Caldon Miami Beach, FL

Lethal Enforcers allows two people to play with the addition of another gun.

A new feature to EGM is the official Bad Photocopy Contest. You'll find this contest in every interface issue. What we did was photocopy a part of the magazine, blew it up, oh, 800% and it's up to you to find it somewhere in the magazine. You don't win anything, but you can congratulate vourself if you find it!

Here it is! Attempt to find this picture in the magazine, if you dare!

(Ed. Hev. don't you guys read the instruction material that comes packed with the game? There's a little pamphlet in there with an order form to purchase the second player gun. That's what the phone jack is used for. There's a plug on the pink Justifier-the one you order for \$11.95 from Konami-and it plugs into the jack on the blue oun so two players can play. We've gotten tons of mail with this question, so I guess gamers would rather jump right into the game rather than read through literature for a couple minutes.)

AMIGA CO IS THE CHOICE

The last six months have been a roller coaster ride for me. All these new systems are driving me crazy. First, I was going to get a Sega CD but that system already looks obsolete. I was also thinking about getting a 3DO but it's way too expensive and its future seems uncertain. The Jaguar looks cool, but it doesn't have enough third-party licensees making games. I was thinking about waiting for Nintendo's Project Reality but I don't know if it's ever going to materialize. Then it hit me, the Amiga CD32. I really didn't take this system seriously at first but just recently read that six new games are due to be released for it. These games were

RADIO SHACK NOW OFFERING ATARI TITLES

In response to the letter in the January issue on finding old video games, Radio Shack now offers a viable alternative to hunting down long lost titles.

Fort Worth, Texas-Radio Shack is now offering re-releases of more than 50 of the most popular Atari Video Games, including such classics as Pac-Man, Pole Position, Centipede and Donkey Kong. Owners of Atari Series 2600 or 7800 video game players may purchase the titles at nearly 6,600 participating Radio Shack stores and dealers nationwide through an "Express Order" program.

The Express Order service allows customers to order the video games at local Radio Shack stores. Prepaid orders are delivered directly to the customer's home within seven to ten days.

"Radio Shack's decision to offer these titles is in response to parents' concerns about the proliferation of violent video games in today's marketplace," said Radio Shack President Len Roberts. "A whole new generation of game players can now experience some of the most exciting, non-violent video games ever created.

"The Atari titles sell for \$9.99 plus a small charge for home delivery. Replacement joysticks and other accessories for Atari systems are also available through Radio Shack Express Order.

After speaking with a representative from Radio Shack, he informed us that the boxes, game carts and manuals are all original and are not old cartridges with new cases and boxes.

awesome, but I don't want to invest in the Amiga CD32 if its future isn't very bright So here are some questions. How many third-party licensees does it have? What is the price of the system? How does the future of this system look? Can you give it more coverage?

Keith Dougherty Long Beach, CA

Oscar is one of the many Amiga CD games that will be out with the system.

(Ed. The Amina CD32 is definitely shaping up to be a worthy contender in these heated system wars. To answer your first question, there are a whopping 151 product licensees that produce games, accessories and other doo dads for the popular Amiga line of computers and now, the Amiga CD32 See if you recognize some of these names, Millennium, Gametek UK, Core Designs, U.S. Gold, Commodore, Domark, Gremlin Graphics, Electronic Arts, Mindscape, Interplay, Ocean, Probe Software and Virgin Games Sound familiar, eh? According to a price schedule from Commodore, the Amiga CD32 will retail for \$399.99 and will be packed with two titles: Pinball Fantasies and Sleepwalker How does the future look for the Amiga CD32? Well, since the success of any video game system depends on the software developers and the consumers, it's really up to the consumers to find interest in the system since the devel opers are there in abundance. Of course we'll give it more coverage. Since the system is supposed to go on sale in late February or early March, there will plenty of games available to coincide with the launch These titles should include Defender of the Crown II, Zool D/Generation, Nigel Mansell, Trolls and James Pond II with games like Total Camage, Dennis the Menace, Dangerous Streets, Jurassic Park and Microcosm to be released at later dates. You'll be able to see these and other games in our preview pages or as full-blown Fact Files While the first batch of games are mostly Amiga computer games with CD tunes there will be many more Amiga CD32 games being developed to use the power of the CD to its fullest.)

TIRED OF REPEATS

What is it with these companies and the games they produce? What I'm talking about are companies that bring out a game on one system, such as the Genesis, and then port it over to the Super NES. I understand that these companies are catering to the people who don't own all the systems, and that may be good. But what really bothers me is when these companies just put the game on another system and not make any improvements or noticeable changes. I mean, hev, everyone knows the Super NES has better music. So when porting a Genesis game over, how about enhancing the music a bit? I won't mention names but there's one that really sticks in my mind. In EGM #55, I saw a Fact File on

the Genesis version of Mega Turrican and this problem jumped into my mind. Is Mega Turrican going to be any different from the Super NES version that was called Super Turrican? I own the Super NES version and really enjoy it and if Mega Turrican offers something different, I may buy that one too.

Barry Takashi San Francisco, CA

There are some new features in Mega Turrican like this Plasma Rope.

(Ed. We understand your dilemma, Barry, and from the looks of it, so does Data East. Mega Turrican does offer new features that weren't found in Super Turrican. Although the character is still the same, he now has a Plasma Rope that can stick to ledges and walls for added technique. Reportedly, there is a secret level to the game as well! The amount of weaponry is smaller and the Lightning Attack is miss ing on Mega Turrican, but there are two new weapons to be found. Some of the levels may look the same as the Super NES version but the layouts of the play forms and power-ups are different as well. As you can see, not all companies believe in the policy of cookie-cutter gaming)

64 EXPLODING BITS OF RAW POWER.

AND 3-D GRAPHICS REAL ENOUGH TO MAKE YOU BLOW CHUNKS.

YOU'VE BEEN Warned.

THE JAGUAR 64-BIT SYSTEM.

You want power? How about 100 times more power than 16-bit systems.

Color graphics? You think 16.7 million colors will hold you?

Maybe you're looking for fast, realworld animation? Tell you what. You better have a strong stomach

Cuz this is Jaguar ™ And this ain't no toy

We're talking 64 bits of power and 3-D animation. As in three dimensions. As in this stuff is real. You're not just pretending to fly a plane. You are in the cockpit. You are dodging buliets and bombs and mountains and bridges. And you are sweating.

You've also got CD-quality sound to deal with, and arcade-quality games that are so multilayered and deep you may never find your

way out. Not to mention the 17- button controller that gives you so many ways to annihilate your enemies, you'll never have to kill one the same way twice.

Jaguar 64-bit Power Speed, Control Sweat.

THE GALACTIC WAR HAS BEGUN.

Do you know where your pods are?

CYRERMORPH

The evil Pernitia Empire has the ultimate weapon robotic technologies that can rebuild themselves. The good news 's your forces had new weapons designed. The bad news is your scientists were seized by the enemy and sealed into pods along with vital supplies and information.

As pilot of Cybermorph Transmogriffon, a prototype morph,ng attack craft, you must recover the pods so the resistance fighters can halt the Pernitia Empire's sinister march toward galactic domination

Cypermorph is packed in every Jaquar 64-bit system and packed with intense 3-D texture-mapped graphics, CD-quality sound and real time, real-world action that'll help you explore 50 separate worlds of canyons, valleys, vortex towers, force fields, power stations and fast-flying hostile enemies aiming to blow you away

FIRE GOOD. LOSING BAD.

You're the proud leader of the Dino Dudes, and it's up to you to guide a hairy gang of Cro-Magnons to the top of the food chain

On your prehistoric journey you'll discover fire weapons, and The Wheel You'll battle dinosaurs and nval tribesmen, and do everything you can to avoid becoming an endangered species.

MORE WRESTLING GAMESI

I am a big fan of wrestling and wrestling games, I used to own a NES and I had every single wrestling game that you can think of. I am now the proud owner of a Super NES and Genesis I have WWF Royal Rumble for the Super NES and it's a pretty good game, but it lacks a big variety of moves like the ones you find on the NES's wrestling games. Every wrestler has the exact same moves with the exception of their trademark moves. I would like to know why a two or three Meg wrestling game, like the ones for the NES, have a bigger variety of moves than a 16-Meg game for the Super NES? Capcom made Saturday Night Slam Masters, Sega with Wrestle War, Taito with TWA and Technos with Wrestlefest, I read that FCI was making WCW Super Brawl for the Genesis and Super NES but I haven't read anything about the game for the past few months. Will you be able to give us more information about this game in future issues as well as other companies making wrestling games for home systems?

> Alex Nieves Hamden, CT

Both FCI and Natsume are ready to deliver new wrestling titles for the Super NES.

(Ed Wrestling games really seem to have caught on with players in the past few years. In addition to the games you already mentioned. Natsume will be releasing their own wrestling title to be called Natsume Championship Wrestling and it's for the Super NES Unfortunately, the Winter CES didn't uncover any new Genesis wrestling games. Naturally we'll keep everyone updated to new games in the Next Wave section so stay tuned to see what new titles may pop up. In reference to your question about the amount of moves in some games, that totally depends upon the programmers of the games themselves)

So real you can taste it.

Ken Griffey Jr. Presents: Major League Basebatt.

Until now, to get the feeling of major league baseball, you had to be willing to eat a 98-mile-per-hour horsehide sandwich.

No more, "Ken Griffey Jr. Presents:

Major League Baseball'" gives you all the

excitement of real baseball. For a fraction of the cost of recon-

structive dental surgery. Because it's

the first and only baseball game that plays by Ken Griffey Jr.'s hard and fast rules: Play hard, And play fast,

And the realism doesn't end there. Check out NHL® Stanley Cup® Hockey ** and NCAA® Basketball *** They've got Super NES' exclusive Mode 7 perspective. So your viewpoint

rotates with every change of possession, objects shrinking and scaling with every step.

> Just like you're on the field with the pros. (The best play here, remember?)

And those are just a few of the titles in the massive Super NES Sports Network. We're talking over 75 games here. With Lots more to come.

So forget the next level. If you want a taste of the major

Sonic 3 Bets Extra Levels in Japan 380 Prices Slashed Across the Pacific Enhanced 300 Games By Summer Shong Long's Bro Makes Guest Stop Bionic Commando Boos 16-Bit Bota East and Capcom Face Off Says Stiffs the Summer CBS New MPES Undates To bit Game Units

...Hang on to your Ho-Hos, kiddles, 'cuz the Q-Mann's back with a bag full of insider info from around the video game industry. The barbed wire has been thick this month, my loyal Q-Fans, but yours truly has punched the front line delenses to get a look at the greatest gossip you'll find anywhere in the biz...At the front this month is Sega, and a hot rumor from Japan. While Sonic popped up and saw his shadow on Hedgehog Day, the Japanese will not see the super soft until May. Word has it that Japan will get a special 'customized' version of the game with eight all-new levels. The Japanese version will reportedly have a whopping 24-Megs of power while the U.S. managed only a 16-Meg fight. What will be new? Don't know...yet.. Also new from the Land of the Rising Sun is news that Matsushita is looking to avoid the 3DO launch mistakes that were witnessed in the U.S. by introducing the machine at 54,800 yen (\$500), instead of the previously announced 79,800 yen (\$740). This direction came from the head man himself, Youichi Morishita, President of the big M. They're now looking to put a million 3DOs on Japanese streets by the end of the year. The Q-Mann sez 'Nice Try...

...While we're on the subject of 3DO, back here in the States, the O has received ultra-secret word that the price of the hardware is going to soon fall under the \$500 threshold in the U.S. as well! Add in the debut of the company's own MPEG-1 carridge in the next few months that, although costing nearly 250 beans, will also run the same movies that Philips has been pressing for their CD-1 unti... A by-product of the MPEG-1 release will be enhanced versions of existing games from EA. Reps for the company say that Road Rash 3DO will be the first game out of the gate in May, but the only improvement will likely be some cleaner full-motion video. Rumor has it that Shock Wave will follow suit in July, with higher-resolution terrain scrolling by under your ship. .Sticking with the CD game systems, yours truly has learned from well-placed sources within Philips that the company is looking to expand their base by porting several of their games over to the Sega CD.

...It looks like Capcom of Japan has gotten cold feet and changed their mind about putting the infamous Sheng Long character into their new Super Street righter 2 Turbo game. Seems that they want to save Sheng Long for a future joict and at best we'll be seeing his younger brother, Gouki, in this game. The Q cautions that even this is still up in the air, as the prototypes on test don't have this character built into the game yet. While even some die-hard SP2 fans are getting worn a bit thin on the series, Sushi's suggests that you give it a try. My by os yas there are much more than; just cosmetic changes to be found in the new rev and you can see for yourself by digging up his exclusive two-page spread in this issue...Sticking with Capcom, the white shirts let slip the development of a new 16-Bit update to their classic Bionic Commando. Can you hear, Super Commando? Also look for an equally infused update to the GameBoy title, Gargoyle's Quest to be called, not so surprisingly, Super Gargoyle's Quest...

...While the development of home versions of Super Street Fighter 2 on both Genesis and Super NES came as no surprise to anyone, Capcom has vowed to give us something special in order to lure players back to the stores one more time. Could that mean that different versions of the classic fighter are on the way??? Also, now that Capcom has sold the rights to their 8-Bit Mega Man update to Nintendo, their Mega Man X development team has moved full force behind a Genesis version of the classic scrolling character...Data East and Capcom, meanwhile, continue to lock horns in court as to whether Data East's Street Fighter 2 look-alike violates any copyrights. The big DE is so confident as to the ments of their soft that they are continuing the coin-op to home translation of a 20-Meg Super NES cart. If the U.S. exces have enrything to say about it, our version of this super righting game could top 24-Meg and have additional characters thrown in for good measure! Data East is also diversifying their lineup with two new games for the Neo-Geo arcade system (Spinmaster and Wind Jammer), as well as Side Pocket 2 now in development for Seas's uccoming Saturn mean machine...

...Evidently not happy with the folks from the Consumer Electronics Show, Sega has elected to skip the summer show in Chicago this year. In a sensitive fax that was forwarded to third-party licensees, Sega explained that their annual dealers conference suited their needs as a forum for introling the holiday product line. This mega event will take place in Ordando, but don't plan on packing your bags—it won't be open to the public. Rumor has it that it won't even be open to the press, but you can be quaranteed that the C-Mann will be there... That's if for this ish—stay tuned until next time.

NEW WASHINGTON: You found your memory. Now if only you could loose those mutants...

PARADISE CLUB: Funny, for a nightclub it looks a lot like a prison. And where's your gun when you need it?

PLANET TITAN: Outwit traps. Outgun mutants. And keep your eyes open; it's a jungle out there.

PROJECT REALITY ... SOON?

Everyone has been wondering about Nintendo's powerhouse Project Reality; if and when it will come out. Our Head Ed decided to go straight to the horse's mouth and get the news directly from Nintendo.

According to Nintendo, several titles are already in the works. And although development systems have yet to go out to licensees, Project Reality is based upon a CI architecture, to allow programmers to hop right into production

And one big question is whether or not there will be a CD-ROM

o R

EGM found some of the answers to the most common Project Reality questions.

Unexpectedly, Nintendo officials have stated that Project Reality will be a \$250 cartridge-only medium, but there will be an expansion port in the system which will allow PR to connect to a future CD-ROM machine when CD-ROM teachology is a viable medium. Nintendo wants to create virtual worlds for the player rather than limit themselves with foolage from recorded video, which is what current CD-ROM games are limited to.

Nintendo feels that such a restriction would not be cost effective for the con-

sumer or themselves. What's the point of a CD system if you can't deliver the type of games you'd like to?

The price is also on everyone's mind. Nintendo expects the price to be kept low, because of the efficient chip configurations, and the fact that there is no need for a thousand dollar drive system or other things needed for use of the industrial SGI machines.

Nintendo feels that sound is a key part of the gaming expenence While Project Reality only has stereo sound, expansion ports leave doors open to features like Dolby Surround, SRS, and other 3-D sound systems.

The arcade format of Project Reality will come out this year, and a refined home version will appear next year Nintendo is serious about this one.

PIONEER LD IN 3-D

Pioneer will be releasing a new Leseractive title called 3-D Museum for both Mega LD (February) and LD-ROM2 (March) systems. This soft is a collection of 3-D mages, some requiring the viewer to stare cross-eyed at the screen and others requiring the use of special glasses (the cheap kind with tinted cellophane lenses). There are also others for which special (expensive) goggles with high speed LCD shutters are necessary.

The special goggles will be available concurrently with 3-D Museum. The goggles alone cost ¥10,000 (\$95). Furthermore, they require an adapter—

If you are willing to pay for it, the Laseractive has a 3-D system.

another ¥5,000 (\$45) Using these goggles, the special 3-D images in 3-D Museum can be witnessed in breathtaking color and realism. The goggles can also be used for seeing 3-D images from random dot and stereo scope illustrations—which should be a relief to people who have only gotten headaches from staring cross-eyed unsuccessfully at 3-D images

When contacted, Pioneer of America confirmed that they will be bringing out the LaserActive 3-D glasses in the United States. A price, specific release date, or which garnes will come out for the 3-D glasses haven't been determined yet.

3-D Museum is one of the few titles utilizing the 3-D Glasses. It works well.

SATURN IS

It appears that the Saturn is closer than ever to being released. At the Las Vegas CES we were able to catch a glimpse of some of the Saturn games that are under development. These games, while still early, boasted unbelievable texture mapping and heavy-duty polygons. The shading on some of these has to be seen to be believed.

Once you look at the stats of this mega-machine, you will get a good idea of the power it boasts. Two 32-Bit RISC chips newly developed by Hitachi are used as central CPUs. The chip's official name is SH7604. Specs: 25 MIPS, (at 28.7 MHz), 4 Kbyte cache memory, 32-Bit DSP processing, and over 450,000 transistors. Suited for 3-D computations, Saturn's architecture enables the processing of 900,000 polygons per second. Seven other graphic and audio processors are also used. Through simultaneous parallel processing by all nine processors. performance is claimed to reach 800 MIPS. Saturn's performance is said to reach 64-Bit levels

Saturn features the first synchronous DRAM for a home system This DRAM was developed for high performance work stations and enables faceses than conventional RAM. A total 36 megabits (4 5 MB) of this RAM are used for sound, CD-ROM buffer, etc. Saturn shows great potential as a multimedia machine.

MEGA JET LANDS!!!

Way back in issue #50, we showed you a nifly item called the Mega Jet in the International section (page 80). The Mega Jet was a sort-of-portable Mega Drive that was connected to the planes of Japan Airlines (JAL). You could rent the games for the duration of the flight or bring your own.

Now, Sega of Japan has announced that they are releasing it to the public on March 10, to the tune of ¥15,000 (\$130), It will come with a mono DIN plug cord (3.5 meters, a stereo DIN plug cord is available separately) and an AC Adapter. The game slot is on top of the system, and it has six buttons for control. This portable Mega Drive does not have its own screen, nor is it compatible to the Mega CD, MCD2, Mega Modem, or the cordless pads.

It's a smaller form of the classic Mega Drive design, similar in function to the CD-X, but this system has no CD-ROM, or the ability to accept one So why would anyone want to have

one of these gadgets anyway?

Well, it takes up far less space than

The new TV Tuner for the Game Gear might reach the States.

the older Mega Drive system, and if you have a TV in your car (like some of the latest models offer) you can plug the power supply into the cigarette lighter and play your games on the go it should be noted, however, that although the MJ is a hand-held unit, it does not and cannot run on batteries.

With the CD-X coming out, it seems highly unlikely that the Mega Jet will ever surface in our part of the world.

Overall, it looks cool If you're a gadget junky and must own every system, here's a knick-knack for your collection.

THE SUPER LINK!

Taxing advantage of the popular wave of multi-player games, Bullet Proof Software is introducing their Super Link for the Super Nintendo. This item will function like the tap currently available from Hudson Soft. The Super Link is a little bit larger than a cassette tape, and it contains four ports for your controllers, its relatively small size makes it less clunky than the other, bloger multi-player adapters.

The Super Link is compatible with all the multi-player games, such as NBA Jam, Barkley: Shut up & Jam, World Cup Striker, The Peace Keepers, Fire Striker, EA Soccer, Madden NH: '94, Bill Walsh Football, NHL Hockey, and a tot more. So if you're interested in playing your games with a bunch of your friends, you might consider the Super Link.

SUPER STREET FIGHTER 2 TURBO by Capcom

Stop the presses!! EGM has done it again! Here for the first time anywhere are pictures and moves from Capcom's upcoming Super Street Fighter 2 Turbol Get ready to rumble street fighters, this one looks to be Capcom's best ever!!

As the name of the game implies, Super SF 2 Turbo is substantially faster than its predecessor Capcom has obviously heard the beleaguered cries of the players who liked the speed of the earlier SF 2 Turbo. The speed increase is, once again, immediately noticeable.

Hoo-Boy!! Ken now has a mid-air throw! This is a deadly move for poor Ryu!

Also of note is the new moves that each of the World Warriors now possess. Each character has an average of three or more new attacks which include a new technique known as the "Super Combo." To use the Super Combo, you must rely on a small meter located at the bottom of the screen. After using various attacks, the meter will begin to fill up. Some moves will make the meter charge faster than others. Once the meter is filled, the word "Super" will flash, signaling you to use the Super Combo that your character possesses. Each character's Super Combo uses a specific Jovstick/Button combination that the player must execute. The results of these combos are devastating!

Finally, there is supposedly a new super-character who is now the end-boss of the garne! Yes, that's right, it could be the fabled "Grand Master!" The game is still in the preliminary stages, but from what we've seen, it looks to be a real knockout!

Special thanks goes out to Michael Borg, Manager of Super Just Games in Northbrook, Illinois for all his help! Thanks for the pizza, guys!

Chun Li displays her new and improved iumping kick to her good friend. Sagat.

Honda's new "Ohicho" body throw will make your opponent cringe with fear.

To knock his opponents out of the air, Dhalsim now has a high Yoga Fire!

MORTAL KOMBAT II by Midway

3,1

The latest version of the hot new fighting game is currently circulating through arcades. The changes aren't as extreme as the leap from 1.1 to 2.1, but there are a few new features and differences. One notable difference is the amount of blood in the garme it has actually increased! Almost every move leaves loads of blood seaking into the floor. The other main features are the random character select, disabiling throws, and new finishing moves. Is this the last update or will it go to 4.0? Well inform you first of any changes!

ALIEN VS. PREDATOR by Capcom

As you can see, you'll encounter more than one type of alien during the game.

In an EGM exclusive. Capcom has announced their awesome Alien vs. Predator arcade game. Due out by press time, Alien vs. Predator looks to be everything you'd expect from the makers of games like Street Fighter 2 and The Punisher!

With the ability to accommodate up to three players, this coin-munching

monolith will definitely attract tons of gamers. Pick and choose between two types of characters which include Cyborgs or Predators. You'll notice that the aliens have a variety of forms and functions. For example, there are the huge Royal Guards and the stealthy Warrior aliens Each is different in the ways that they attack. Nice touch!

As the Predator, you will have access to all of the weaponry in his arsenal!

To add the icing to the proverbial cake, the sound is provided by Capcom's incredible Q Sound, which will blow the head off of your obnoxious little brother at 15 paces!!

Capcom's arcade games are known for their excellent playability and replay value Alien vs. Predator will not disapnoint namers!

There are two types of characters to play as: Predators and Cyborgs.

D&D TOWER OF DOOM bu Capcom

Secret rooms filled with useful items are scattered everywhere!

As you probably will recall, we previewed Capcom's D&D Tower of Doom back in EGM #54. Now with the game's Impending release, we talked to the game's prime developer, Alex Jimenez. Alex, who has been a role playing mayin for the past 19+ years, is extremely proud of D&D Tower of Doom, "It's the first fully authorized role-playing video game anywhere."

After Capcom obtained the licensing agreement with TSR (the grandfather of role-playing games) Alex spent the next few years creating the first non-linear video RPG ever to hit the market!

What's the coolest thing about D&D Tower of Doom? "You can finish the game and immediately play it again, and it will be an entirely new story. You will be able to take many different

were digitized into the game!

Another EGM exclusive—Konami has just announced the release of the second game in the Lethal Enforcers series. Lethal Enforcers 2 Gunfighters! If you liked the first Lethal Enforcers, you're gonna love this game!

Set in the Old West, your job is to rub out a band of gunslinging villains! This is obviously a lot harder than it sounds,

The graphics have been improved since the first Lethal Enforcers game.

In the bonus rounds, you'll have a chance to improve your shooting.

though. There is great variety to the progressively harder levels. One level takes place in a saloon, while another takes place alongside a moving train! You won't get bored playing this coinmuncher! There are even bonus levels after certain areas, which are great for getting some practice with your trusty sidearm!

And speaking of your gun, Lethal Enforcers 2 Gunfighters comes with a new gun which recoils every time you shoot! This little goodie adds to the realism of the game, while still allowing complete control and accuracy. Reloading your weapon is really easy. thanks to the off-screen loading concept taken from the first Lethal Enforcers.

The graphics have been cleaned up in this version of the game. The play action is smooth and surprisingly realistic. Oh, and before I forget, Konami told us that in all likelihood, this game

As with the first Lethal Enforcers, you can pick up weapon enhancements.

Keep an eye on your ammunition supply (lower left) so you don't run out!

will in fact be released for the home market soon after its arcade release! Cool! I wonder about the blood though. hmmm...

Anyway, Lethal Enforcers 2 Gunfighters will be a big hit in arcades, bars, and anywhere else people crave excitement. Pick up your six-shooter and give it a tryl

INTERNATIONAL

Hey there! Guess what? I've been all over Japan this month lookin' for any little tidbits that might interest you. First off, I've got you some really good info on the eminent release of Matsushita's (Panasonic) 3DO REAL player in Japan. The system should be out by the time you read this. It will not have a pack-in game with it, which is surprising. I've got some info on Japanese releases as well. Some familiar names include Ultraman and Wacky Races.

I also got to see a show put on by Square Soft. It was there that they showed their latest games like Final Fantasy 1 & 2, which is a remake of the first two Famicom carts on one 8-Bit cart. They also had Final Fantasy VI on display, and were wowing audiences. They also had the soundtrack of the new characters.

Laiso attended a show by artist Akira Toriyama, the guy who created Dragon Ball Z. There were lots of nice knick-knacks for fans of the manga and anime.

There's a few less sidebars this issue, but I thought you'd like to see more games. Once again, I hope you like what I've dug up. None of this was easy. Enjoy!

NEWS

Square of Japan put on a show for their fans by previewing the latest games they had to offer. Most eagerly anticipated of course, was Final Fantasy VI, which drew large crowds. Also on show was Final Fantasy 1 & 2 for the 8-Bit Famicom. As a special treat for fans, this cart is essentially a two-for-one cart. Among these titles. Square also had Final Fantasy memorabilia to wow the fans. The most outrageous object had to be a grant robot that appears in the latest of the series. Some of the more common items ranged from pins to some terrific music CDs. All in all, I had to say I had a great time at the show.

Fighter's History

For hard-hitting action, take a look at Fighter's History by Data East. Boasting pristine graphics, lots of characters, and amazing moves, this title would impress any fighting fain. It even has an old Data East hero in it. Do any of you remember Karnov?

Do any or you remember Ramov? It's unlikely that we'll ever see this game on our shores, since there's a lawsuit going on between Data East and Capcom. It seems that some of the features of this game resemble Street Fighter 2 a bit too closely. If it ever does come out, you might want to take notice of this one Fighter's History looks impressive.

Fighter's History is an all-out fighting extravaganza for fighting enthusiasts.

First developed for the PC Engine. Human's Fire Pro Wrestling series has gained an enormous cuit following among dedicated wrestling fans. This is a bit surprising as the characters are obviously blocky and small. and response is on par to molasses Human's trademark game has captured the souls of real fans of the sport by providing up to 64 wrestlers with 25 realistic moves each. What's even better, four players can tap in and wrestle each other! Imagine the excitement that'll follow when you have three of your friends trying to slam you in your living room! Since the other versions sort of frustrated players, certain moves have been reduced to the pressing of a simple button. Featuring easier controls than the earlier versions, and lots of ways to do moves, it's a sure bet that this cart will enthrall the fans once more. Knights of the Round for the Super Nintendo is one action-packed game you won't want to miss!

Still hot from the arcades, this game has you choosing from three of the fabled knights of the Round Table You can be the brave King Arthur, the mighty Percival or the elegant Lancelot

As you travel through the realm, you'll face countless enemies who are out for your blood. Fortunately you can power-up your weapons and armor by increasing your expenence points in battle. Collect enough and you'll get more armor for your warrior.

If you are looking for a good game where you hack lots of bad guys to pieces, Knights of the Round has it all-plus it's stress relieving.

Storm the castle walls of your enemies and stop them for good.

Fight giant Bosses who can mash you with one hit. They're awesome!

You'll probably need a friend to help you against the onslaught of enemies.

The Phantom Boss splits into an assortment of deadly forms to kill you.

Pocky & Rocky 2

Super NES

Shooter

Shooter fans can now rejoice. Pocky & Rocky 2 will be coming to the United States very soon. Since the first game was so impressive, expect this one to be even better. For one. Pocky has more friends to take with her. Aside from Bocky, there's a ninia, a robot, and even a scarecrow!

Pocky & Rocky 2 is loaded with technique, just like the first one. You can use your fan, tails ... or whatever (depending on who you are) to bat enemy shots away. This is the only shooter where you can do that Also use the other player as a weapon against the enemies. Like the first game, you can power-up your weapons to extreme proportions. There are numerous items hidden throughout the many levels too! Only by finding them all will you have a chance of making it all the way to the end

As could be expected, the graphics have been improved over the original game. It still has that Oriental feel to it as well. The music and sounds are even better, so this cart has been enhanced in every way possible.

Natsume has been hard at work to bring this over. Now Pocky & Rocky fans have another challenge to work their way through.

Swat the enemies who are climbing over the temple.

Pocky & Rocky 2 is loaded to the brim with action.

RattleTech

Super NES Simulation

This brand new 16-Meg game was designed by Sculptured Software and features sight 52-spnte BattleMechs for use in combat. There are two modes. The tirst is Career Mode, where the player lives out the life of a warnor for more strategic play. The second is the Melee Mode where aggressive players can jump right into the middle of a heated battle. You can customize your mechs with 16 types of weapons, so no two battles will be alike Expect this game to be similar to the VIP Battle Tech agme.

The thrills of BattleTech are on their way to the Super Nintendo.

Check out this awesome cinema of the terrifying Madcat!

This is your basic point of view in the BattleTech game.

Vortex

Super NES

Action

Electro Brain has renamed their F/X chip game, Citadel, to Vortex. Vortex will have the same plot and transformations of your mech. Like before, you can go anywhere on the battlefield you want, and transform into four different forms.

The visual effects in Vortex are unbelievable, with tons of scaling throughout the constant battle scenes.

Vortex uses a variety of viewpoints to give the player the best possible advantage. That way, you can see around you. Unlike most games, you'll be attacked from all sides!

If you want a fast-paced shoot-'ernup, Vortex will give you what you need Are you good enough to save the world?

Drop out of your ship and prepare for space combat. Better think straight.

Use the mech-form to totally blast the enemies into oblivion.

Simulation

Have you ever wanted to build your own amusement park? If the answer is yes, then Electronic Arts has the game for you. Their new title is called Theme Park and it's similar to games like SimCity. You build your park, put up shoos and set up the rides. Try to make your park appealing for the people, and watch the ticket sales grow. Build a loser and you'll be out of business Theme Park's rendered graphics make you feel as if you are really on the rides. You can go on any of the attractions. The roller coaster is especially awesome. If you've got a 3DO and lots of spare creativity, Theme Park will give you hours of fun.

Choose which rides you'd like to feature. There are a lot to choose from.

The way you set up your park is very important. Use strategy.

Take a spin on one of your roller coasters if you want a real trip.

Viacom New Media, a division of

Viacom International, is the Interactive publishing division that was established to develop and market interactive entertainment software. The Castro Valley project that is going on now is their test bed for future projects. Working closely with Nickelodeon and MTV, two of Viacom's networks, Viacom New Media is working hard to produce quality software that is both fun to play and has the look and feel of the various TV shows they produce.

That's where games like Rocko's Modern Life come in. Although we have already shown you a Fact File of Rocko's Modern Life in EGM #55, we thought you might be interested in learning some more information like the design team behind the game. It's amering tast how quickly a game like this can be created with such a large and talented staff.

On the other end of the spectrum are the original bad boys themselves, Beavis & Butt-head. These two have created a niche for themselves with their rambunctious action and their carefree attitude. Since MTV is a network of Viacom, you could really see this title coming. This adventure game puts our two heroes in search of some shredded Gwar tickets that Mr. Anderson's poodle snatched from their hands. The adventure takes them on a trip through town to find the missing pieces. Viacom New Media may be a new face in the video game segment, but they've already got themselves one heck of a lineup!

There's another Nickelodeon-based title called "Nickelodeon Guts." It's a game show where three kids compete against each other in various events that include water and elastic sports. This game is still in very early development.

Rocko's Modern Life is a comical game where you must save your dog-Spunky.

Restors Modern the early instead of control based on the Nickelsen and the control based on the Nickelsen and the control based on the care name. Completed Levels

In addition to the Egyptian pyramid, there is another level to complete. It resembles the "Stardust Speedway" from Sonic CD, having giant instruments and notes.

The second level is a wacky zone made up of giant horns and huge musical notes.

What we've seen so far...

In Issue #54, we showed you the earliest version of Bubsy 2. Not much has changed since what was shown last issue, but a likite tweaking has been done. Essentially, it is intact.

Almost all of the Egyptian pyramid level is complete, containing many passageways.

Many new enemies are also programmed in. Several being cartoon-like animals.

The Launching Frog Bonus Stage is also retained, but no others at this time.

The smell of freshly cut spring grass, popping popcorn and the roaming of peanuts, the crowd cheering for your favorite team-these are just a few things that happen in a ballpark and are part of America's favorite pastime, baseball. You can have all these effects right in your living room without ever driving to the stadium. Getready to see the biggest baseball game bonanza to date in this Special Feature, exclusively from EGM. Check out the pix and decide for yourself which one will be king this upcoming baseball season.

The main emphasis this year is stats and lots of 'em. Stats for baseball games are becoming a standard in these games. Furthermore, since the MLBPA is a sponsor for these games, many state options are being created Series Baseball for the Genesis, for instance, takes the cake on stats. Other companies are realizing that state are quite important to baseball games, as well, and adding them in

Stats is just one thing that has changed in the game play of these carts. Animations of players and field have improved greatly. Realism is the key to these games, and animation has to prove the illusion. Also, play by-play commentators are being welcomed into this sport to increase the interest in the games and to give them life. They get better year after year as new companies make baseball games and more ideas come up to raise home baseball gaming to its fullest potential.

ESPN BASEBALL TONIBHT

One of the top sports channels has teamed up with Sony Imagesoft to bring you this awesome new baseball game. Cool scrolling of the field makes you think you are there, and the graphics are really something. As for the sound effects, many sounds of a real ballpark are presented here.

POWERFUL PRO BASEBALL

A very cute animated baseball game from Konami. You may say it doesn't go far enough in the realism aspect, but it has all the ingredients that make up a good basebalt game. Miniature-sized players lend some originality to this one. Sound effects and music reality fits environment.

ZOO BALL

American Technos coming at yai A very unique concept that delivers what any baseball game can, but with a twist. Instead of humans, you get animal characters like the famous Coca Cota Cat. Stats show you the skills of the animats. Animations are cuts and sounds are quite funny.

WORLD SERIES BASEBALL

One of the best sports games Sega has brought out for the Game Gear. Like the Genesis version, it is very well done. Play in many game modes and edit your own team to be the best in the lesgue. Graphics and sounds have been improved to give the game realism. Catch it!

TECMO MLBPA BASEBALI

The very first game to put the player in the fielder's position. A new feature, Flying Camera, gives you the feeling of being in a real game. A very swikward position for the fielder, but it is a neat concept that may be a trend in the future for these games. Another good title from Tecmo.

KEN BRIFFEY BASEBALL

Play with one of the top players of our time—Ken Griffey. Ken Griffey Basebail delivers what you need in a basebail carl. Awesome graphics show great animations of players running, throwing, and batting. Sounds are OK considering it's not finished. Brought to you by Nintendo!

COPER RES HETEROPENT

BELIEF PITCHER

Left Field Entertainment, inc.—a new company, brings us Relief Pitcher. Though it is not finished yet, the cart looks promising to baseball fans with cool animations of players. Plus, the sound effects are commendable.

INTELLIPLAY BASEBALL

You can certainly see the detail and realism that intellimedia Sports put into this disk. Forget everything you have ever seen in a baseball game before. Awecome video clips for you to watch.

TECMO MIEPA KASERALI

If there is one thing Tecmo is known for, it's their superb sports games. And Tecmo MLBPA Baseball lives up to that standard. Put yourself in this fast-paced sports game. A sure winner. Awesome!

First released in the West and East coast this past Christmas, the Jaguar is now being sold nationwide. This incredible new machine has attracted many consumers because of its cost. Priced at \$250, this is a big difference when compared to the other new system that started around \$800. Many peripherals are at work right now. One peripheral that will surely upgrade this already incredible machine is a CD-ROM drive. This will be a doublespeed CD-ROM so it will not slow down or have any access time. With the introduction of Interactive Q Sound for the CD and cart, the sound quality will surely climb to new heights.

The CD-ROM will be released the second half of this year. Full-motion video will be shown on the CD-ROM. In the following the CD-ROM, a joystick called Trustmaster (not related to the PC version), will be made by an independent company.

THE RAN

You've got to play this cart a few times before you get the hang of the controls. Once you do, look out!

THE U

The floating skull with the tail in the second level reminds me of a girl io used to date! Hence—"The Ugly"!

In the second level, you must defeat this huge, ugly skull to rescue the hostages.

Hit this "thing" (for lack of a better term) with multiple shots to stop it in its tracks.

ere's a shooter with a twist! It's called Sub-Terrania and it's a real mindblower! Each mission has its' own set of unique objectives for you to fulfili. All of, the scenarios take place underground, so obviously this is not your average shooter!

At the start of each level, you are given a map which outlines your objectives for that specific mission. Along the way you will discover secrets, fight hideous looking monsters and confueer a world seldom seen. Sub-Terrania rules!

After a few levels, the enemies will becommuch bigger and much harder to defeat.

ese Are The Icons Which Keen You Alive!

4

Fuel Refresh-These suckers are placed strategically all over each level. Finding them can be a problem sometimes, especially when you're

low on fuel. Land on one to replenish your waning fuel supply. Memorize their locations because they could save your life!,

Shield Refresh- An invaluable item later in the game. These are scattered around. However, they are nowhere near as plentiful as Shield Refresh. If you

as Shield Herresh. If you are lucky enough to find one, land on it to completely fill your shields. They will be very welcome in the later levels.

Free Life- Whenever you can find one of these, get it at all costs! This will give you one free life when, and if, you can spot

it. Look around carefully so you don't miss them. They're usually in hard-to-reach places, or they're near something that will damage you!

Missiles- Get 'em while they're hot! If you should happen upon one of these little beauties, you're good to go. Each one of these will add 10 missiles

to your already bulging arsenal. Missiles especially come in handy against bigger, more powerful enemies.

Mission Objectives:

is this—each mission's main objective is twofold:
Rescue the trapped

Easier said than done! The stranded soldiers are usually scattered in different places. And to make matters even worse, there are many intermediate mission objectives to be completed before you can reacue the people and locate the Sub-Module, it takes a lot of patience, so good luck!

Some strategy to get you started!

OK, here we go! On this level, start by getting the Extra Life located at (1). Be careful not to shoot the moving platform next to it, because it will move and destroy the icon. Tricky! Next, go and rescue your trapped people located at (2). Easy enough, Now go and refuel your ship and pick up some missiles. You can get them at (3). Be careful not to hit the cavern walls, because they will drain your shields. If you hit the walls too many times, your ship will be destroyed. Now it's time to get the

Sub-Module and complete the mission. If you need to refuel, you can do it either on the way to the Sub-Module, or on the way back! A Fuel Refresh is located at (4).

As you're going for the Sub-Module, watch out for the celling-mounted laser cannons along the way. If they hit you enough times when your shield is low, you're history! Grab the Sub-Module and immediately head back to your starting point. Once you're back at the stating point, the mission is over. Good job!

FACT FU

Great graphics and superb game play make this quite an interesting gaming experience.

THE RAN

This game really wasn't finished enough for me to form a 'bad' about it. Watch out next time!

ne of SNK's first fighting games now has a sequel with more fighters, more moves, more special attacks more of everything!

Newcomers to the art are Yun Sakazaki. Temjin, and Eijn Kisarag . All three are gifted with exceptional flighting skills Yun is the sister of Ryo Sakazaki. She was kidnapped in the original Art of Flighting and has developed her fighting skills to fend for herself. Tempin is a heavy-set character with incredible power and speed. He has honed his skills using Peoche Props and an assortment of special attacks. Eiji Kisaragi is perhaps one

of the toughest fighters among all of the fighters in the game. He has the uncanny ability to deflect fireballs or any projectile from any enemy. He also has great range when he

deflect fireballs or any projectile from any enemy. He also has great range when he uses his sword. There is one slight character change. Mr. Karate has now taken off his mask and is Known as Takuma Sakazaki—the father of both Yuri and Ryo Sakazakii.

This sequel has improved the graphics over the original in that it has more colors and detail. The sound, too, has improved quite a bit with realistic punches and grunts. As well, the music jams.

he Horde is set in a humorous medieval fantasy world. Chauncey. the hero of this game, must defend his village against the mighty Horde. The mission of the Horde is very simple: devour everything in sight, including cows, houses, fences-they're not very picky. Chauncey, who has had the good fortune to come upon the great honor of protecting the village in the name of the King, finds out that it's harder than it looks! And so will you! The full-motion videos and the awesome storyline make this game totally fun. The Horde is also very comical in the way it moves.

This is the fastest paced RPG I have ever played! The full-motion cinemas are also very cool.

When you first start fighting the Horde they seem unstoppable.

us. Entitled Anima Mundi, the 30minute film is a compilation of striking movements of microorganisms. The underlying concept of Anima Mundi is the Platonist idea of the world as a liv-

ing entity, in which natural order and beauty are based on the differences between, and endless variety of, the different

species. Although that sounds a bit lofty, the video is cool, as is the accompanying music. It is

Wildlife Fund, the largest private U.S. nature conservation organization.

Where There's a Will...

t's generally assumed that people who engage in the sedentary sport of playing video games typically are male youths with short attention spans powered by sugarcoated cereais, fast food. and soft drinks.

Quite to the contrary. however, there is a growing number of handicapped people out there who enjoy a good game of Madden Football or a winner-take-all Street Fighter 2 tournament as much as the next guy. And the advant-

tages of playing video games for people who are handicapped far exceeds just the fun and challenge of playing. It's a great tool for socialization. The games put everyone at an equal level, old and young, handicapped and non-handicapped. Ironically, the common

ground of enjoying the same video game usually opens new lines of communication between players, regardless of their different backgrounds.

To ensure that just about everybody can enjoy the benefits, and more importantly-the camaraderie of video game playing, EGM salutes Long Beach, CAbased KY Enterprises.

KY builds input devices for those who can't use standard input devices. They produce controllers for people who have use of only one hand, as well as a uth-controller for those who have no use of their hands. To obtain more information, contact KY ## (310) 433-5244.

Punisher and Archie to Team-Up That's right comic book fans. Marvel's dark and gritty vigilante, The Punisher, will be teaming up with everyone's favorite teenager. Archie Andrews, in a one-shot comic book crossover slated for this summer.

A Star is Hatched · Warner Bros.' new flick, Ace Ventura: Pet Detective grabbed the number one box office spot in its first two weekends of release. Its star, the rubber-faced Jim Carrey, is suddenly a red-hot commodity. His next flick is based on the Dark Horse comic The Mask, which is due out this summer.

Disney Releases "Aladdin" Pic Straight to Video in May

reaking new ground in the enter tainment industry, Wait Disney Home

announced its first original, made-for-video animated movie, The Return of Jafaz. This all-new Aladdininspired adventure is being released under a new barner called "Walt Dinney Home Video Presents." This new line of Disney video releases will feature brand new original adventures as well as programs based on popular Disney characters who will make their world premier only on video.

The Return of Jafar picks up where Aladdin ended, with the evil sorcerer Jafar

trapped inside a magic lamp. When a clumsy thief inadvertently releases Jafar from the lamp, the all-powerful "genie Jafar" plots his revenge against Aladdin.

Show Your Allegiance to Mortal Kombat

o you've just kicked Goro's four-armed-monkey-butt for the 47th time and you still can't get enough of your favorite fighting game: Mortal Kombat.

If you're that loyal to MK, then you might consider a new line of apparel from UAV Corporation. The shirts come in youth sizes 8-20, as well as adult large and extra-large. Four different

designs include the now-famous Mortal Kombat logo, a graphic depicting all the Mortal Kombat warriors, and the ever-popular Rayden. The fourth design includes a picture of your favorits MK warrior as well as his/her vital stats. If you can't flind them in a store near you, call (400) 486-6782.

Some Sendal staffers demonstrate both the form and function of IAX* Apparel's Mortal Kombat gear by showing off its great look in the top photo while taking advantage of its 109 percent cotton comfort and durability in the bottom pic.

New Star Wars Trilogy

new series of Star Wars books is coming, and early indications are that they are every bit as hot as the Timothy Zahnpenned novels.

The new saga, entitled "The Jedi Academy Trilogy," is authorized by LucasFilm and is being written by sci-fi author Revin J. Anderson.

In Jedi Search, the first-book, Luke Skywalker takes the first step toward setting up an academy to train a new order of Jedi Knights. And two childrenthe Jedi twins of Han Solo and Princess Leia-come into their powers as the war between the New Republic and scattered

remnants of the Empire continues.

The book's publisher, Bantam Spectra, has more Star Wars novels planned, including two trilogies and five stand-alone books.

It just ain't right...

Would you let this guy put the "special sauce" on your Big Mac? Neither would we, but this character wasn't

really working at a Micky-D's, he was at the ToyFair in New York showing off Mattel's expanded line of McDonaid's toys. Mmmm, acrumptious!

attack on February 6, 1994. The value and scope of his contributions are absolutely phenomenal. As tribute, EGM brings you some of the highlights of The King's career.

1917: Jacob Kurtzberg is born in New York City, the son of European immigrants.

1935; Kurtzberg goes to work for Max Fleischer Studios. His main duty consists of "in-between" drawlarge for Popeye and Betty Boop cartoons.

1938: Kurkiberg goes to work at the studies of Will Eisner and Jerry Iger, creating three strips: The Count of Mount Cristo, The Diary of Dr. Hayward, and Willon of The West. Eventually these stories are collected in Jumbo Comince, making them the first official comic book work of Kirby's career.

1942: Jacob Kurtzberg legally changes his name to Jack Kirby and marries Rosalind Goldstein, in a union that will last the reet of his life.

1986: Kirby goes back to Atias, where he works on a handful of supernatural and Western titles. After a series of failed attempts at creating a newspaper strip (with the help of inkers like Wally Wood and Frank Glacoia), Kirby returns to DC, where he draws covers and stories for their supernatural titles.

1958: Once again, Kirby returns to Timely (now and forever known as Marvel) Comics.

1961: When publisher
Martin Goodman hears
about DC's Justice League of
America doile brisk business, he suggests that Lee
and Kirby create a superhero

team. The end result is The Fantastic Four, and the impact—as well as the after—shock—are nothing short of extraordinary. The Marvel Age has begun. The universe—will never be the same

1962: The Incredible Hulk debuts. Later that year, Kirby's cover for Amazing Fantasy 15 gives the world their first glimpse of Spider-Man. Finally, Thor debuts in Journey Into Mystery. By year's end, Kirby's page and cover output was the greatest of his career.

1963: The King's prodigious output continues: The X-Men, The Avengers, and Sgt. Fury and His Howling Commandos are born.

1993: Toppe Comics launches the Kirbyverse, giving new life to previously unused Kirby characters. The covers, also feature previously unused Kirby art, inked by each luminaries as Todd McFarlane and Steve Ditto. For a new generation of readers, it's their first exposure to the talents of lack Kirby.

TV Heavy On New Heroes for 1994

uperhero fans willhave reason to cheer this year as is number of new shows and a number of new heroes will hit the airwaves.

Probably the highest profile hero aiming for small screen success is RoboCop. The live-action series is set for a March 1994 release with a two-hour premiers to be followed by 21 one-

hour weekly episodes.
The series premiers was written by the successful screenwriting team of Edward Neumoier and Michael Miner, who wrote the original RoboCop leature film. The subsequent episodic storyline will chronicle Murphy's struggle with his new role, his past memories, and the violent world be patrols.

To ensure high standards, and spectacular special effects, each episode is budgeted at \$1.3 million per episode-equal to Star Trek: TNG and Deep Space 9 and twice the budget of Babylon 5.

Steven Downing, who has more than 260 hours of network prime time programming experience including work on ABC's MacGyvez, will executive produce the series.

Another new character slated to hit the airwaves in animated form this season is the Phantom.

In the year 2040, the Earth testers on the brink of environmental disaster. The ecological excesses of the 20th century combined with the aftereffects of the Resource Wars of the early 21st century and have created a world that is increasingly incapable of supporting life. Around the world, the elite have insulated themselves with cutting edge technology in the

towering reaches of immense city states. Nowhere is this shocking disparity between the haves and have-nots more apparent than in greed-ridden Metropia, the largest and most powerful of the city states.
